

Some of the organisations who trust DPR Roofing

Read what some of our clients think of our service:

"DPR Roofing listened to what we wanted and delivered a service that met our requirements, and was within the timescale and budget we planned. For the duration of the project, all staff remained professional, friendly and efficient. Nothing has ever been too much trouble.

The fact that DPR have their own powered high access boom means that they can quickly resolve emergency roofing jobs without the cost of scaffold and time wasting. We look forward to continuing to use DPR in the future and would certainly advocate other business' to use their services."

Toyota (Materials Handling), Leeds

"As our approved roofing contractor, DPR has been providing us with retail roofing solutions for many years. We find their staff and roofers polite, professional and very efficient. They are easy to do work with and are always willing to provide a solution when we present them with a challenge. They are everything we look for in a commercial roofing supplier."

Tesco, Wakefield

"DPR Roofing have looked after all our commercial roofing needs at all our warehouses. They are always on time and offer a speedy turn around. It is a big bonus for us to have a company with a self owned access boom that can be called on in almost an instant instead of waiting for expensive scaffolding or ridiculously inflated cost hired machinery. We look forwards to continued business with DPR Roofing."

Graham Waring, Operations Manager, Rest Assured
